<Unique selling point/>

- ★ peer to peer crypto exchanges can make our media a fun interface
- ★ Users will be awarded tokens for their viewtime.
- ★ content creators will be awarded with tokens based on their content quality.

<Revenue generation/>

- ★ Users are actually mining CG tokens as they spent their time and energy in our platform.
- ★ A part of their CG token earning goes to the content creators thereby helping them in their journey.
- ★ This can help content creators to enhance their quality of production.

<Implementation/>

- ★ We will be initiating ledgers inorder to keep a track on CG token transactions.
- ★ Inorder to prevent use of bot which is nearly impossible to occur in a blockchain based platform we limits CG tokens
- ★ We will limit CG tokens to a maximum of 100 tokens on daily basis.

<Parallel Schemes/>

- ★ Ad based revenue incomes will be one of the main source of income.
- ★ Content creators can use CG tokens to boost their contents through our application.
- ★ Convenience fee while converting CG tokens into other forms of crypto.(later part wallet addition)
